

B.TECH CSBS	- Sri Eshwar College of Engineering	CGPA: 8.08	2024-2028
SSLC	- Srinivasa Vidhyalaya Matric Hr.Sec School	91.4%	2021-2022
HSC	- Srinivasa Vidhyalaya Matric Hr.Sec School	90.5%	2022-2024

INTERNSHIPS

NIELIT Calicut – Data Analytics & AI/ML Internship	2025
- Developed an AI-based ANPR system using YOLO (v8) and OCR to detect and extract vehicle number plates - Implemented computer vision pipelines with OpenCV for preprocessing and plate localization - Integrated EasyOCR to extract alphanumeric text from detected plates - Built a web dashboard using Django to store, view, and search plate records with timestamps - Enabled real-time detection from video streams for gate entry and surveillance use cases	

PROJECTS

BioFund Connect – MERN-Based ESG Investment Platform GITHUB	2026
Tech Stack: MERN Stack, JWT, Tailwind CSS, PDFKit, Leaflet.js Developed a full-stack MERN application that connects investors with verified environmental and social impact projects. Designed role-based authentication (Admin, Investor, NGO) using JWT and implemented secure RESTful APIs with modular backend architecture. Built real-time impact dashboards, ESG scoring logic, interactive global project mapping using Leaflet.js, and dynamic PDF report generation with PDFKit. Managed structured data modeling using MongoDB (Compass) and Mongoose, including projects, fundings, milestones, notifications, and reports.	
JarvisFi – Multilingual AI Personal Finance Chabot GITHUB	2025
Tech Stack: Python, Streamlit, MongoDB Developed a multilingual AI-based personal finance chatbot offering budgeting assistance, investment insights, and multiple financial calculators (SIP, EMI, Tax, Retirement). Designed user-specific modes (Student, Professional, Farmer, Senior Citizen) to provide tailored financial guidance. Built an interactive and user-friendly web interface using Streamlit, with structured financial logic and data handling implemented in Python.	
Finance Investment Planner – Your Smart Guide to Future Investments GITHUB	2025
Tech Stack: Python, Django, MongoDB Developed a full-stack web application to provide personalized investment recommendations based on user profiles and quiz analysis. Implemented user authentication, dynamic dashboards, and data-driven insights including projected returns, risk analysis, and profit tracking. Integrated Django backend with MongoDB for real-time financial data management.	

COCOCLEAN – Sustainable Water Purification Using Coconut Charcoal :	2025
Developed an eco-friendly system to purify dye-contaminated industrial wastewater using activated charcoal made from Coconut husk waste. The project offers a dual benefit by converting agricultural and industrial waste into reusable resources. Post-purification, the dye-saturated charcoal is repurposed into eco-bricks for construction, promoting zero waste and sustainable development. The solution is low-cost, scalable, and ideal for industrial zones like Tirupur.	

CERTIFICATIONS

Advanced Diploma in Python Programming	CSC	2022
Spoken tutorial Project in C	IIT BOMBAY	2024
Spoken tutorial Project in CPP	IIT BOMBAY	2024
C for Beginners	GREAT LEARNING	2024
C programming	SKILL RACK	2024
The Complete Python Bootcamp From Zero to Hero in Python	UDEMY	2025
Introduction to C++	SOLOLEARN	2025
Introduction to SQL(Basic & Intermediate)	HACKERRANK	2025

ACHIEVEMENTS

First Runner Up in Paper Presentation at CIT,Coimbatore	2026
Second Runner Up in Coding Relay at CIT,Coimbatore	2026
2 nd round Finalist in StartupTN Ecospark	2025
Top 10 in GenAI 24 Hour hackathon	2025
Finalist in ZeroDay 24Hour hackathon	2025

CODING PROFILE

Leetcode	: Solved 100+ problems Global rank : 1,337,289 Link
HackerRank	: Bronze batch for C programming Link
Codechef	: Problem Solver - Bronze Badge Link
Skill Rack	: Solved 1000+ problems Received 3 certificates 279+ Bronzes Link

SKILLS

Database	: MySQL MongoDB DBMS
Programming	: C C++ Python Java(Intermediate) Node.js
Core concept	: OOP's DSA
Libraries	: Numpy Pandas Scikit-Learn
Web Technologies	: HTML CSS Javascript React.Js
Tools	: Canva Word PowerPoint Excel PowerBi Postman Git & Github
Deployment	: Vercel Render
API's	: RESTful APIs
